Chennai

Profile

Aspiring Software Developer with strong foundations in Java, Data Structures & Algorithms, and Object-Oriented Programming. Experienced in building AI-powered web applications, responsive frontend systems, and automation-based solutions.

Education

B.E. Electronics and Communication Engineering at Prince Shri Venkateshwara Engineering College, Chengalpattu. **GRADE: 7.5**

HSC :Syed Ammal Matriculation Higher Secondary School , Ramanathapuram - 75%

SSLC: Dharam Hinduja Matriculation Higher Secondary School , Chennai - ALL PASS

Interview Score

Round 1 score : 38 | Round 2 score : 7.5

Internships

Front-End Developer Intern at Fitsys India Private Limited, Chennai

- Developed and redesigned a responsive website using HTML and CSS, implementing form validation and email integration while improving UI/UX and code structure

Skills

Programming Languages: Java

Java Concepts: OOPS , Arrays, Strings, Trees, Recursion, Linked list, Stack and Queue

Core Computer Science: DSA, Time Complexity, Space Complexity, Problem Solving

Web Development: HTML, CSS, Responsive Design, Form Validation, Integration with Ai model

Tools & Technologies: Render, Vs code, Github, Groq API (Llama 3.1)

Projects

Math voice Assistance -

- Developed a browser-based AI voice assistant using JavaScript and the Web Speech API for real-time voice and text interaction.
- Engineered a custom intent-detection and query-processing engine to perform mathematical calculations and answer educational queries.

Customer Support Assistance:

- Architected an AI-powered customer support platform using FastAPI, Python, HTML, CSS, and JavaScript.
- Integrated the Groq API (Llama 3.1 LLM) to generate automated, context-aware, and tone-adaptive customer email responses.

Certificates

1. Reverse Engineering & Arduino Bootcamp from IITM
2. Embedded Systems & IoT from Internshala
3. Patent - Battery Management System in Electric Vehicle
